⁵ Required to ensure that quarterly ZNCP testing is carried out for AI/AO producers.

⁶ Contact details of the site's veterinary surgeon are required if the plant operator or OV needs to contact him/her if problems are identified, and to feed back inspection results.

⁷ Information about production systems to determine if testing for Trichinella is required, and to assess eligibility for simplified, visual only inspection.

⁸ Controlled housing conditions: fully enclosed houses, including houses with external runs, that are constructed and managed to prevent the access of pets, wild animals and unauthorised persons.

⁹ The contact person is the person nominated by the owner of the pigs to provide Food Chain Information for the pigs on the site. The contact person must have, or be provided with, all the relevant information about the site and the pigs in the consignment.

¹⁰ This may differ from the number of pigs actually consigned

¹¹ Information about veterinary medicines is required to ensure that withdrawal periods have been respected. It also provides information about the health status of the pigs and about diseases that may affect the safety of meat.

¹² This information is equivalent to that required under Schedule 18 of the old Regulations. All pigs in this category must be identified in some manner.

¹³ If the answer is yes, the plant operator and OV should be contacted before the pigs are consigned.

¹⁴ If the answer is yes, the plant operator and OV should be contacted before the pigs are consigned.
