* Where available supplier information is provided for samples collected from wholesale markets

2 A direct comparison has been made between the sample and authenticated material of the stated variety and a match found.

3 The pattern observed in the sample has been compared to previously recorded patterns of authenticated material of the named variety. Further testing would be required for

4 The stated variety does not appear in Official Journal of the European Communities: Common Catalogue of Varieties of Agricultural Species or European Cultivated Potato Database: Cultivars and Breeding Lines.

5 The band pattern observed in the sample does not match that of any varieties currently on the database.
