

SPAR recalls SPAR Spread Up Choco Duo Hazelnut because of undeclared almond

SPAR is recalling SPAR Spread Up Choco Duo Hazelnut because it contains almonds (nuts) which is not mentioned on the label. This means the product is a possible health risk for anyone with an allergy to almonds (nuts).

Product details

SPAR Spread Up Choco Duo Hazelnut

Pack size	400g
Best before	September 2022, December 2022 and January 2023

Risk statement

Allergen(s): Almonds (nuts)

This product contains almonds (nuts) making it a possible health risk for anyone with an allergy to almonds (nuts).

Action taken by the company

SPAR is recalling the above product from customers and has contacted the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. This notice explains to customers why the product is being recalled and tells them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought the above product and have an allergy to almonds (nuts) do not eat it. Instead, return it to the store from where it was bought for a full refund.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
