

Co-op recalls Co-op 2 Salmon En Croute because of undeclared prawns (crustaceans)

Co-op is recalling Co-op Salmon En Croute because it contains undeclared prawns (crustaceans) which is not mentioned on the label. Due to a packaging error some packs have been incorrectly labelled. This means the product is a possible health risk for anyone with an allergy to prawns and/or crustaceans.

Risk statement

This product contains prawns (crustaceans) making it a possible health risk for anyone with an allergy to prawns and/or crustaceans.

Action taken by the company

Co-op is recalling the above product from customers and has contacted the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought the above product and have an allergy to prawns (crustaceans), do not eat it. Instead return it to the nearest Co-op store for a full refund. If you are self-isolating or shielding

please contact the Co-op customer careline on 0800 0686 727 or email
customer.careline@coop.co.uk

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
