**Subject:** RE: Mobile trader – intervention findings Papa's Pizza and Burger

Dear Michael,

Please find attached, details of a recent intervention undertaken of the above mobile trader.

The hygiene standards found at the time of intervention are outlined in the inspection report, a copy of which is attached.

Also attached are some photographs taken at the time.

1. Wooden stick in bucket of chips
2. Bare wood board on the food preparation surface
3. Dirty electrical socket

I suggest the FH rating be amended as the business is currently displaying a 5, which does not reflect standards found.

If you require any further information, please contact me.

Yours sincerely,

*Josh King*
