

# Hammonds of Knutsford recalls BuzzBallz Choc Tease Cocktail because of undeclared milk and sulphites

Hammonds of Knutsford is recalling BuzzBallz Choc Tease Cocktail because it contains milk and sulphites which are not mentioned on the label. This means the product is a possible health risk for anyone with an allergy or intolerance to milk or milk constituents and/or a sensitivity to sulphur dioxide and/or sulphites.

## Product details

### Buzzballz Choc Tease Cocktail

Pack size	200ml can and 3x 200ml multipack
Batch code	All batch codes

## Risk statement

**Allergen(s):** Milk and Sulphites

This product contains milk and sulphites making it a possible health risk for anyone with an allergy or intolerance to milk or milk constituents and/or a sensitivity to sulphur dioxide and/or sulphites.

## Action taken by the company

Hammonds of Knutsford is recalling the above product from customers and has been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

## Our advice to consumers

If you have bought the above product and have an allergy or intolerance to milk or milk constituents and/or a sensitivity to sulphur dioxide and/or sulphites do not drink it. Instead return it to the store from where it was purchased for a full refund, with or without a receipt. If you would like any further information, please contact BuzzBallz UK c/o Hammonds of Knutsford on 01565 872872.

## **About allergy alerts**

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
