

ALDI recalls Gianni's Milk Chocolate Lollies because of undeclared almond

ALDI is recalling Gianni's Milk Chocolate Lollies because they may contain almonds (nuts) which is not mentioned on the label. As a result of a packaging error, some packs have been incorrectly packed with Gianni's Almond Lollies. This means the product is a possible health risk for anyone with an allergy to almonds (nuts). This issue only affects products sold at a limited number of ALDI stores in the Midlands.

Product details

Gianni's Milk Chocolate Lollies

Pack size	4 pack
Best before	September 2024

Risk statement

Allergen(s): Almonds (Nuts)

This product may contains almonds (nuts) making it a possible health risk for anyone with an allergy to nuts.

Action taken by the company

ALDI is recalling the above product from customers and has been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. This notice explains to customers why the product is being recalled and tells them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought the above product and have an allergy to almonds (nuts), do not eat it. Instead return it to the store from where it was bought for a full refund. For further information, please visit www.aldi.co.uk or contact <https://customerservice.aldi.co.uk/contact>

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers

because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
