

Committees of the FSA Board

The FSA Board appointed an Audit and Risk Assurance Committee and Business Committee to exercise some of its responsibilities and to advise it on others.

Business Committee

The Business Committee is a body which exists to provide appropriate high-level oversight of operational matters, including performance and use of resources (financial and human resources), at Board level and to hold the Executive to account on delivery of its plans and policies.

Business Committee meetings will not be held in public, but a report of each meeting will be included on the agenda for each FSA Board meeting and published so that it is clear to interested parties and the public on what basis it has taken its' recommendations to the Board to approve and what evidence it has considered in reaching them. Papers considered by the Business Committee will be published as an annex to the report to the Board unless there are particular reasons why specific papers cannot be published.
