

# Candy Dynamics recalls varieties of Toxic Waste Slime Lickers because of a choking hazard

Candy Dynamics is recalling several varieties of Toxic Waste Slime Licker Sour Rolling Licking Candy because of the possibility that the rolling ball may detach, which could cause a choking hazard. The products below are known to be sold in the UK and only those with the batch codes mentioned are being recalled.

## **Our advice to consumers**

If you have bought any of the above products do not eat them. Instead return them to the store from where they were bought to discuss options for a full refund.

## **About product recalls and withdrawals**

If there is a problem with a food product that means it should not be sold, then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). The FSA issues Product Withdrawal Information Notices and Product Recall Information Notices to let consumers and local authorities know about problems associated with food. In some cases, a 'Food Alert for Action' is issued. This provides local authorities with details of specific action to be taken on behalf of consumers.
