Risk statement

The possible presence of Shiga toxin-producing E.coli (STEC) in the products listed above.

Symptoms caused by STEC organisms include severe diarrhoea (including bloody diarrhoea), abdominal pain, and sometimes haemolytic uremic syndrome, (HUS), a serious condition that can lead to kidney failure and can be fatal.

Action taken by the company

Greencore Group is recalling the above products. Point of sale notices will be displayed where the products were sold. These notices explain to customers why the products are being recalled and tell them what to do if they have bought the products.

Our advice to consumers

If you have bought any of the above products do not eat them. Instead return them to the store from where they were bought for a full refund.

About product recalls and withdrawals

If there is a problem with a food product that means it should not be sold, then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). The FSA issues Product Withdrawal Information Notices and Product Recall Information Notices to let consumers and local authorities know about problems associated with food. In some cases, a 'Food Alert for Action' is issued. This provides local authorities with details of specific action to be taken on behalf of consumers.
