

Asda recalls ASDA Chicken Dinners because of undeclared allergens

Asda is recalling ASDA Chicken Dinners because the product contains milk, egg and barley (gluten), which are not mentioned on the label. As a result of a packaging error, some packs contain ASDA Beef Dinners. This means the product is a possible health risk for anyone with an allergy or intolerance to milk or milk constituents and/or egg and/or barley (gluten).

Product details

ASDA Chicken Dinner

Pack size	375g
Best before	05 September 2025

Risk statement

Allergen(s): Milk, Egg and Barley (gluten)

This product contains milk, egg and barley (gluten) making it a possible health risk for anyone with an allergy or intolerance to milk or milk constituents and/or egg and/or barley (gluten).

Action taken by the company

Asda is recalling the above product from customers. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see attached notice.

Our advice to consumers

If you have bought the above product and have an allergy or intolerance to milk or milk constituents and/or egg and/or barley (gluten), do not eat it. Instead, return the product to the nearest Asda store for a refund, with or without a receipt. For more information contact Asda Customer Relations on 0800 952 0101.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the

product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
