

F&Y2 Wave 7-8 NI: Chapter 1: Food you can trust

Introduction

The FSA's overarching mission is 'food you can trust'. The FSA's vision is a food system in which: food is safe; food is what it says it is; food is healthier and more sustainable.

This chapter provides an overview of respondents' awareness of and trust in the FSA, as well as their confidence in food safety and the accuracy of information provided on food labels.

Confidence in food safety and authenticity

91% of respondents were confident (i.e. were very confident or fairly confident) that the food they buy is safe to eat, and 84% were confident that the information on food labels is accurate.

[\(footnote 1\)](#)

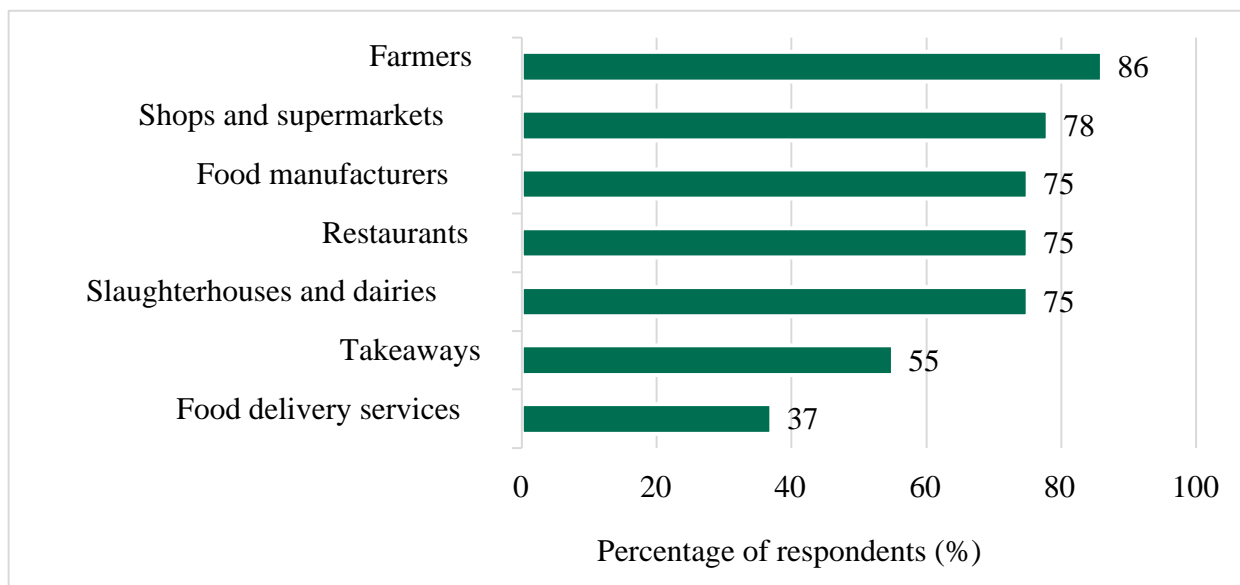

Confidence in the food supply chain

76% were confident in the food supply chain. [\(footnote 2\)](#) When asked how confident they were that key actors in the food supply chain ensure that the food they buy is safe to eat, respondents were more likely to report confidence in farmers (86%), shops and supermarkets (78%), than in takeaways (55%), and food delivery services such as Just Eat, Deliveroo, Uber Eats (37%) (Figure 1). [\(footnote 3\)](#)

Figure 1: Confidence that food supply chain actors ensure food is safe to eat.

Knowledge of the FSA varied between different categories of people in the following ways:

- age group: respondents aged between 45 and 74 years (for example, 66% of those aged 45-54 years) were more likely to report knowledge of the FSA compared to the oldest

- respondents (for example, 47% of those aged 75+) [\(footnote 5\)](#)
- food hypersensitivity: respondents with a food intolerance (69%) were more likely to report knowledge of the FSA compared to those without a food hypersensitivity (58%)
- responsibility for cooking and/or shopping: respondents who were responsible for cooking (60%) and/or shopping (61%) were more likely to report knowledge of the FSA compared to respondents who do not cook (44%) and/or those who never shop (35%)
- Northern Ireland Index of multiple deprivation measure (NIMDM): respondents who lived in less deprived areas were more likely to report knowledge of the FSA compared to those who lived in more deprived areas. For example, 62% of those who lived in the least deprived area (NIMDM 5) reported knowledge of the FSA compared to 50% of those who lived in the most deprived area (NIMDM 1)

Trust in the FSA

Respondents who had at least some knowledge of the FSA were asked how much they trusted the FSA to do its job, that is to make sure food is safe and what it says it is; 77% of these respondents reported that they trusted the FSA to do this [\(footnote 6\)](#). 83% were confident that the FSA (or the government agency responsible for food safety) can be relied upon to protect the public from food-related risks (such as food poisoning or allergic reactions from food), 81% were confident that the FSA is committed to communicating openly with the public about food-related risks, and 84% were confident that the FSA takes appropriate action if a food-related risk is identified. [\(footnote 7\)](#)

1. Question: How confident are you that A) the food you buy is safe to eat B) the information on food labels is accurate (e.g. ingredients, nutritional information, country of origin)? Responses: Very confident, Fairly confident, Not very confident, Not at all confident, It varies, Don't know. Base = 1,550, all respondents in Northern Ireland. Wave 8.
2. Question: How confident are you in the food supply chain? That is all the processes involved in bringing food to your table. Responses: Very confident, Fairly confident, Not very confident, Not at all confident, It varies, Don't know. Base = 1,550, all respondents in Northern Ireland. Wave 8.
3. Question: How confident are you that... A) Farmers, B) Slaughterhouses and dairies, C) Food manufacturers for example, factories, D) Shops and supermarkets, E) Restaurants, F) Takeaways, G) Food delivery services for example, Just Eat, Deliveroo, Uber Eats...in the UK (and Ireland) ensure the food you buy is safe to eat. Responses: Very confident, Fairly confident, Not very confident, Not at all confident, It varies, Don't know. Base = 1,526, all online respondents and all those who completed the 'Eating Out' paper questionnaire in Northern Ireland. Wave 7.
4. Question: How much, if anything, do you know about the Food Standards Agency, also known as the FSA? Responses: I know a lot about the FSA and what it does, I know a little about the FSA and what it does, I've heard of the FSA but know nothing about it, I hadn't heard of the FSA until I was contacted to take part in this survey, I've never heard of the FSA. Base = 1,550, all respondents in Northern Ireland. Wave 8. Please note: all consumers taking part in the survey had received an invitation to take part in the survey which mentioned the FSA.

5. Data for respondents aged 16-24 years is not reported due to a small number of respondents being in this group.

6. Question: How much do you trust or distrust the Food Standards Agency to do its job? That is to make sure that food is safe and what it says it is. Responses: I trust it a lot, I trust it, I neither trust nor distrust it, I distrust it, I distrust it a lot, Don't know. Base= 941, all respondents who know a lot or a little about the FSA and what it does in Northern Ireland. Wave 8. Please note: 'I trust it a lot' and 'I trust it' are referred to as trust.

7. Question: How confident are you that the Food Standards Agency / the government agency responsible for food safety in England, Wales and Northern Ireland...A) Can be relied upon to protect the public from food-related risks (such as food poisoning or allergic reactions from food), B) Is committed to communicating openly with the public about food-related risks, C) Takes appropriate action if a food related risk is identified? Responses: Very confident, Fairly confident, Not very confident, Not at all confident, Don't know. Base = 1,550, all respondents in Northern Ireland. Wave 8. Please note: 'very confident' and 'fairly confident' are referred to as confident. Respondents with little or no knowledge of the FSA were asked about the government agency responsible for food safety, while respondents with at least some knowledge of the FSA were asked about the Food Standards Agency.
