

Annual Governance Report

FSA 24/12/10 - Report by Timothy Riley, Deputy Chair of the FSA Board

Annual Governance Report 2024

Report by Timothy Riley, Deputy Chair of the FSA Board

1 Summary

1.1 The Board is asked to:

- **Consider** the recommendations from the Board Effectiveness Review.

- **Consider and agree the:**
 - Audit and Risk Assurance Committee's Terms of Reference

- **Reaffirm the:**
 - Business Committee's Terms of Reference

 - Terms of Reference for the FSA Board and

 - Standing Orders for the Board and its Committees.

2 Introduction

2.1 The Food Standards Act 1999 provides that the Agency may regulate its own proceedings. Good governance requires that the Board and its Committees operate to clear, agreed Terms of Reference (ToR) and in accordance with Standing Orders (SOs). Since 2014, the Board has reviewed its suite of ToR and SOs annually.

2.2 In line with the ToR, the Board delegates to Committees certain functions mainly associated with implementation and corporate governance of the Agency. Committees currently constituted under this power are the Business, and the Audit and Risk Assurance Committees.

2.3 The Board agrees and reviews the ToR of the Business and the Audit and Risk Assurance Committees annually, together with the ToR and SOs for the Board.

2.4 We also annually consider the effectiveness of the Board. This year, 2024, a light touch review was done to understand where the Board and its Committees were performing well. The

review also wanted to identify where opportunities for improvements in internal governance might be available.

3 Board Effectiveness Review

3.1 The [Corporate Governance Code for Central Government Departments 2017](#) requires that a Board effectiveness evaluation is carried out annually and with independent input at least once every three years.

3.2 This year's internal Board Effectiveness Review took place in September 2024 and comprised one to one interviews by telephone with each of the Non-Executive Board Members (NEDs), the Interim CEO and the Director of People and Resources. Each interview took between 30-45 minutes and followed the format of topics set out in Cabinet Office guidance. The full report can be seen at Annex 1.

3.3 The findings of the Review confirm that the Board and its Committees, Audit and Risk Assurance Committee (ARAC) and Business Committee (BC), and the Welsh Food Advisory Committee (WFAC) and the Northern Ireland Food Advisory Committee (NIFAC) provide an effective governance structure and function for the FSA, as judged by feedback from respondents.

3.4 The Board is led well and with clear purpose by the Chair and notwithstanding changes in Board membership, there is a strong and cohesive culture across the Board.

3.5 Recent changes in the Board NED membership, a change in CEO and the uncertainties that follow any change in Government, raise concerns as to the scope and depth of expertise available to the Board. New appointments for NEDs are in train as is the appointment of a new CEO. NED expertise in Public Health, Food Business and Production, and an understanding of Commercial Finance were identified as desirable skills to add.

3.6 The Secretariat provides effective and valued support and manages well the scheduling and oversight of papers to Committees. A shared observation between NEDs and Executive is that scope may exist to rationalise the detail and length of papers between the different Committees. The objective would be to optimize Executive time, reduce burden on the Secretariat and better enable the Board to focus on where challenge and support might be best directed.

3.7 A key finding of the 2022 Review was the restructuring of the Business Committee so that the success or failure of Strategy rollout could be monitored through clear measures and key performance indicators. Respondents viewed the Business Committee to be developing well. It was suggested that papers and decisions of the Business Committee be shared with non-BC member NEDs to engage and input more effectively leading up to Board. This could also assist an across-the-Board clarity on Business Committee function.

3.8 ARAC was universally cited as a case where leadership and improved function on risk assurance had developed well over the previous year. Deep dives and proactive mitigation were seen as a positive support to effective governance oversight.

3.9 WFAC and NIFAC operate well by engaging Wales and Northern Ireland input into the Board. To avoid duplication in Board meetings it was suggested that each Committee item might be abbreviated where a significant input had been offered within earlier Board agenda items.

3.10 Relationships between the Executive and NEDs were identified as strong and supportive from both perspectives with welcome scrutiny and constructive challenge.

3.11 The recommendations from the Review are summarised below:

Board

1. Strategy: Address inertia where there is opportunity for timely and proactive communication of ideas/policy. Get the FSA more on the front foot.
2. Membership: New appointments for NEDs to include skills and expertise in Public Health, Food Business and Production, and an understanding of Commercial Finance.
3. Membership: Look for opportunity to accommodate representative diversity in the new appointments NEDs.
4. Secretariat: Revisit the recommendation from the 2022 Review to rationalise the detail and length of papers between the different Committees. Produce more concise papers in plain language. Add cover sheets which describe prior history, and which Committees and decisions have been engaged earlier. Set out a clear objective for the specific Committee in terms of decision required and leave explanation of complications/hurdles to the main paper.
5. Aim to allow more than one week between ARAC or Business Committee and the Board to allow their recommendations to come to Board in time.
6. Engage Board in feedback on the value and effectiveness of IT solutions and improve where possible.
7. Make KIT calls less formalised without the need for teams of officials to attend.

Business Committee

8. Prior to Business Committee meetings, papers re-shared with non-BC member NEDs to engage and input more effectively leading up to Board meetings.
9. Keep the agenda under review to avoid potential duplication with Board and to maintain the focus on high level operational performance.

ARAC

10. Review case examples of risks that merit being passed forward from ARAC to the wider Board. Specifically, risks that are unmitigated or unresolved and which impede delivery of FSA strategy or operations at a significant level. The purpose being to assure that outstanding risks are being reported to Board and effectively resolved/mitigated.
11. Dedicate Committee time to horizon scanning strategic and operational risks to anticipate and plan to minimize risk and reactive mitigations.

Scientific Advisory Committees

12. Formulate a simple framework to represent to Board how the Science Council and Science Advisory Committees feed into or are commissioned to inform risk evaluation on innovative or unevaluated food technologies.

3.12 **The Board is asked to consider** the recommendations from this year's Board Effectiveness Review.

4 FSA Governance

4.1 As part of our continuous improvements to the clarity and transparency of our governance structures, the FSA Board adopted a new Board Operating Framework in [March 2024](#). This document draws together all the existing governance documents of the organisation and has

been published on the FSA website: [Board Operating Framework | Food Standards Agency](#)

4.2 As part of this update, the Board also agreed new guidance on the usual [delegations from the Board to the Executive](#). Our early informal evaluation suggests that this work has been successful, as senior leaders in the FSA now report greater clarity on the decisions and functions which are delegated to them. Internal Audit plan to evaluate the effectiveness of the FSA's delegations in 25-26.

5 Board Governance

5.1 Every year the Board considers the ToR of the Audit and Risk Assurance and Business Committees together with the ToR and SOs for the Board, all of which sit within the Board Operating Framework.

Terms of Reference for the FSA Audit and Risk Assurance Committee

5.2 The 2023 ToR for ARAC were most recently reviewed by the Committee, on the Board's behalf, in September 2024 when the following changes were made:

Membership section:

- Inclusion of: The Deputy Chair, Chair of the Business Committee, will attend ARAC to ensure effective communication and co-ordination between the committees.

Attendance section:

Deletion of: Head of Delivery Assurance as a Standing Attendee.

Information Requirements section:

- Inclusion of: A bi-annual overview of current litigation and associated risks.
- Inclusion of: An annual overview of the FSA's assurance map.
- Inclusion of: An annual overview of the Business Appointment Rules.
- Inclusion of: Periodic updates summarising significant Projects and Programmes
- Deletion of: An annual report summarising the results of regulatory audits including an overall assessment / opinion on the effectiveness of official controls.

5.3 If the Board is content with the updated ARAC ToR (Annex 2), they will be adopted as ARAC agreed them in September 2024. ARAC, and then the Board, will review the ARAC ToR again as of September 2025.

Terms of Reference for the FSA Business Committee

5.4 No changes are proposed to the [Terms of Reference for the FSA Business Committee](#) (Annex 3) and subject to the Board reaffirming them, they shall remain as the Board last affirmed them in December 2023.

Terms of Reference for the FSA Board

5.5 No changes are proposed to the [Terms of Reference for the FSA Board](#) (Annex 4) and subject to the Board reaffirming them, they shall remain as the Board last affirmed them in December 2023.

Standing Orders for FSA Board and its Committees

5.6 No changes are proposed to the [Standing Orders for FSA Board and its Committee](#) (Annex 5) and subject to the Board reaffirming them, they shall remain as the Board last affirmed them in December 2023.

5.7 The Board is asked to:

- **Consider and agree the:**

- Audit and Risk Assurance Committee's Terms of Reference (Annex 2).

- **Reaffirm the:**

- Business Committee's Terms of Reference (Annex 3)
- Terms of Reference for the FSA Board (Annex 4) and
- Standing Orders for the Board and its Committees (Annex 5).

Board Appointments

5.8 Appointments to the FSA Board are made by Health Ministers in Westminster, Wales and Northern Ireland. The statutory requirement for Board membership is 8-12 members, plus the Chair and Deputy Chair. This requirement reflected there being two appointees for Scotland, which are no longer required since Food Standards Scotland was created as a stand-alone department and Board north of the border. The working assumption is therefore that the Board should be between 6-10 members, plus the Chair and Deputy Chair.

5.9 Two Board Members, Justin Varney and Hayley Campbell-Gibbons, stood down from the Board as of 30 September 2024, leaving 6 NEDs plus the Chair and Deputy Chair.

5.10 Professor Susan Jebb's first three-year term of appointment as FSA Chair was initially extended until 31 December 2024. Professor Jebb's second three-year re-appointment as FSA Chair from 1 January 2025 until 31 December 2027 was announced on 5 November 2024.

5.11 At the time of writing, FSA officials are working with the DHSC appointments team to prepare for a recruitment campaign to fill the vacancies on the Board.

- **Reaffirm the:**
 - Business Committee's Terms of Reference
 - Terms of Reference for the FSA Board and

- Standing Orders for the Board and its Committees.

ANNEX 1

Board Effectiveness Review

Report by FSA Deputy Chair Timothy Riley

1 Introduction

1.1 The FSA undertakes an annual Review of Board Effectiveness. In 2022 a detailed and in-depth Review was undertaken by an external contractor, Jo Clift and that review used a range of tools and sources to provide the Board with learnings and recommendations.

1.2 This year 2024, a lighter touch Review was done to understand where the Board and its Committees were performing well. The Review also wanted to identify where opportunities for improvements in internal governance might be available.

1.3 This Review took place in September 2024 and comprised one to one interviews by telephone with each of the Non-Executive Board Members (NEDs), the Interim CEO and the Director of People and Resources. Each interview took between 30-45 minutes and followed the format of topics set out in Cabinet Office guidance.

2 Executive Summary

2.1 The findings of the Review confirm that the Board and its Committees Audit and Risk Assurance Committee (ARAC) and Business Committee (BC), and the Welsh Food Advisory Committee (WFAC) and the Northern Ireland Food Advisory Committee (NIFAC) provide an effective governance structure and function for the FSA, as judged by feedback from respondents.

2.2 The Board is led well and with clear purpose by the Chair and notwithstanding changes in Board membership, there is a strong and cohesive culture across the Board.

2.3 Recent changes in the Board NED Membership, a change in CEO and the uncertainties that follow any change in Government, raise concerns as to the scope and depth of expertise available to the Board. New appointments for NEDs are in train as is the appointment of a new CEO. NED expertise in Public Health, Food Business and Production, and an understanding of Commercial Finance were identified as desirable skills to add.

2.4 The Secretariat provides effective and valued support and manages well the scheduling and oversight of papers to Committees. A shared observation between NEDs and Executive is that scope may exist to rationalise the detail and length of papers between the different Committees. The objective would be to optimize Executive time, reduce burden on the Secretariat and better enable the Board to focus on where challenge and support might be best directed.

2.5 A key finding of the 2022 review was the restructuring of the Business Committee so that the success or failure of strategy rollout could be monitored through clear measures and key performance indicators. Respondents viewed the Business Committee to be developing well. It was suggested that papers and decisions of the Business Committee be shared with non-BC member NEDs to engage and input more effectively leading up to Board. This could also assist an across-the-Board clarity on Business Committee function.

2.6 ARAC was universally cited as a case where leadership and improved function on risk assurance had developed well over the previous year. Deep dives and proactive mitigation were seen as a positive support to effective governance oversight.

2.7 WFAC and NIFAC operate well by engaging Wales and Northern Ireland input into the Board. To avoid duplication in Board meetings it was suggested that each Committee item might be abbreviated where a significant input had been offered within earlier Board agenda items.

2.8 Relationships between the Executive and NEDs were identified as strong and supportive from both perspectives with welcome scrutiny and constructive challenge.

3 Background

Context for the FSA and Board

3.1 The FSA is a non-Ministerial government department governed by a Board, rather than directly by Ministers. Board arrangements are set out in statute and its function is to ensure the FSA meets its legal obligations to ensure that all decisions or actions consider scientific advice and the interests of consumers.

3.2 The Board is the senior decision-making body for the FSA. It provides strategic leadership to the FSA and takes collective responsibility for the long-term success of the organisation. The Board is comprised of the Chair, the Deputy Chair and currently six other NEDs.

3.3 The Board is mainly appointed by the Secretary of State for Health and Social Care. One member is appointed by the Welsh Health Minister, and one by the Northern Ireland Health Minister. The Chair is appointed by the Health Ministers from England, Wales and Northern Ireland. The Board operates directly with the following two Committees: ARAC) and the Business Committee. The Board also interacts with the Wales and Northern Ireland Food Advisory Committees, the Science Council and the Scientific Committees.

3.4 The FSA Board meeting is held in public and is available to livestream via the FSA website. The Wales and Northern Ireland Food Advisory Committees are also held in public.

3.5 The Terms of Reference for the Board include the following key responsibilities [\(footnote 1\)](#):

- setting strategy, strategic priorities, and strategic outcomes
- identifying and monitoring strategic, reputational, and corporate risk; determining the FSA's risk appetite
- taking major decisions on the regulatory and controls framework
- taking major decisions on policy and key issues of principle

Membership

3.5 The Board consists of the Chair (Professor Susan Jebb, appointed 2021) and Deputy Chair (Dr Timothy Riley, appointed January 2024), plus no less than six and no more than ten, other Board members. Professor Susan Jebb's first three-year term of appointment as FSA Chair was initially extended until 31 December 2024. Professor Jebb's second three-year re-appointment as FSA Chair until 31 December 2027 was announced on 5 November 2024.

3.6 There are currently six NED members (excluding the Chair and Deputy). Two Members, Dr Justin Varney and Hayley Campbell-Gibbons have stepped down ahead of their full term due to taking up leadership roles elsewhere. Two further Members complete their second term in November 2025: Mark Rolfe, and Margaret Gilmore. An upcoming recruitment campaign will seek replacements and additional Board Members.

4 Findings and Recommendations

Q: How well does the Board and Committees support the Chief Executive (CE) in the discharge of her role as Accounting Officer? (To meet the requirements as set out within managing Public Money).

4.1 This encompasses, Board, Business Committee and ARAC. All respondents believed that effective support is provided to the CEO directly by Board scrutiny and through the delegated functions of ARAC and Business Committee. Possible improvements to further increase effectiveness were identified in this Review and are detailed in the body of this report.

4.2 This Review found that Board meetings are working well. More detailed comments on Board skillset, relationship building, papers, culture and timings follow in this report.

Q: Risk management: is the risk appetite clear and understood by the Board; the Board is confident in the identifying and reviewing principal risks, the Board is able to, and does take full account of risk in decision taking

4.3 All respondents believed there to be a clear and well-established process for agreeing and setting the risk appetite. The Board is well informed of risk and makes informed judgements on mitigating principal risks. All respondents considered that assessment of risk and its mitigation are delegated effectively to and managed well, through ARAC.

4.4 One area identified for possible development is to review a small number of case examples of risks that pass forward from ARAC to the wider Board. These would be risks that have remained at risk of being unmitigated or unresolved and which impede delivery of FSA strategy or operations at a significant level. The review would test that, between ARAC and Board, outstanding risks are being addressed and resolved.

4.5 Board Members did appreciate and understand how the risk analysis process, the risk appetite exercise, the corporate risk register, the strategic risk management process and the risk analysis process relate to each other.

4.6 Respondents valued the ARAC Reports to Board although it was thought helpful if Reports were simplified in plain language. This would assist understanding and engagement on risks and allow the Board to know where it should focus attention.

Audit and Risk Assurance Committee [\(footnote 2\)](#) (ARAC)

Q: Is there a proper discussion by Board of the reports of ARAC and the Business Committee (BC) ensuring all members are aware of the issues discussed and their resolution. The Board is satisfied that ARAC is effectively discharging its responsibilities, and the Board are clear on the role of the Business Committee and how it differs from the Board and ARAC?

4.7 ARAC was widely cited as showing leadership and being able to be proactive in signalling where mitigations are required.

4.8 All Board respondents commented on their confidence in ARAC and the management of ARAC meetings.

4.9 Respondents identified a significant improvement in working practice in the previous eighteen months with the ability to do deep dives on selected areas of potential and actual risk and to be able to do this in an "in person" workshop format.

4.10 It was observed that a further improvement could be achieved if there was horizon scanning of risks to avoid more reactive mitigation. ARAC might also offer to the Board opportunities to engage more directly with a small number of outstanding risks that impact on strategic direction.

Business Committee

4.11 The Business Committee (BC) was observed as having developed well in progressing the delegated Board oversight of operational and financial performance and supporting the CEO and Finance Director functions.

4.12 Business Committee:

- Provides appropriate high-level oversight of financial and operational matters at Board level
- Scrutinises financial and other performance information
- Identifies and monitors operational and delivery risks

4.13 The Business Committee receives the Performance and Resources Report and covers budget, people issues and operational matters. The Deputy Chair of the FSA serves as Chair to the Business Committee, and its membership includes five Board NEDs. The BC Chair also sits on ARAC to provide continuity with Business Committee.

4.14 All respondents understood the BC remit in providing performance oversight (although one or two newer Members who had not been on the Board when BC was an integral part of a “Board Day”), felt the current model still needed development.

4.15 It was observed that papers other than the Performance Dashboard ran the risk of repetition and /or overlap with Board papers. It was seen as important that the Committee's agenda and Board agenda were complementary. NEDs and the Executive considered close attention was required to avoid overlap with the Board agenda.

4.16 Respondents considered that papers to Business Committee could be set out with a clear explanation of issues and proposed remedial actions if needed, so that BC Members' input could be used efficiently. This comment did not apply to the Performance Dashboard which was well designed.

4.17 A forward plan of ‘focus’ topics for performance review might be selected so that Business Committee could engage on performance issues where additional attention and discussion adds value.

5 Food Advisory Committees (Wales and Northern Ireland) and the Science Committees

5.1 A comment from the 2022 externally commissioned Board Effectiveness Review was that the relationship between WFAC/NIFAC and the main Board was one of formal reporting rather than joint exploration. Respondents now considered there was a more proactive relationship between the FSA Board and WFAC/NIFAC.

5.2 In managing WFAC and NIFAC input to the Board it was questioned whether there was occasional overlap between individual inputs to agenda items and the specific FAC reports to Board. It was suggested that where possible this might be minimised to make best use of time.

Science Committees

5.3 The current structure consists of:

- a. the Science Council

- b. the Advisory Council on Novel Foodstuffs and Processes
- c. the Advisory Council on the Microbiological Safety of Food
- d. the Committee on Toxicity
- e. the Advisory Council on Animal Feeding Stuffs
- f. the Advisory Committee on Social Science.

5.4 The Science Council is viewed as a valuable resource in addition to the other scientific advisory committees. However, there were thoughts that it might serve FSA more proactively in relation to horizon scanning and by providing insight on the science behind the large number of new technologies underlying novel food. These comments also applied to the other Scientific Advisory Committees and perhaps were a reflection that the framework in which science knowledge was applied to the FSA agenda, might be better described.

6 The Boardroom and Culture

Q: The tone set by the Chair and Chief Executive gives clarity on, and leadership to the purpose, direction, and values of the agency. How well does the Board work together as a unit (membership, diversity) and with the Executive Management Team (EMT). Papers and discussions are of quality and timely; the Chair ensures sufficient debate for major decisions or contentious issues- encouraging constructive challenge.

6.1 All respondents commented that the tone set for the Board is open to challenge, constructive and accepting of new ideas and perspective. Leadership from the Chair is viewed as clear and unafraid of navigating complex and difficult issues. Summaries and recording of Board decisions and required actions were thought of as well articulated and well led. The Chair is well respected and strongly supported by the Board.

6.2 The relationship between the Board and EMT was viewed as positive, complementary, challenging and constructive where needed. A healthy and positive working tension was evident between CEO and Chair, as was cohesive co-operation on delivering the FSA's business. Recruitment is underway for a new CEO, and it was observed that clear leadership and purpose was desirable in assuring FSA's independent and objective stand as a Non-Ministerial Government Department. A strength on timely operational and strategic delivery was also identified as critical to the role going forward.

6.3 A perception by NEDs was that following Board decisions, implementation could become stalled or diluted. Equally, the Executive balanced the observation with a frustration that legal and legislative constraints might be more effectively communicated and understood by NEDs. To this end, Counsel was increasingly invited to discussions to give this balance of view. Adherence to delivery and timescales on Board decisions should be picked up by Business Committee.

6.4 An observation from the 2022 Review was, "The Board pack should make it easier for Board members to understand why they are seeing a particular paper at this time, the genesis/rationale for the work and where it fits into the strategy/delivery work of the FSA". This notion was repeated by most of the respondents. It was suggested that the cover paper format used by ARAC may be one approach to summarise which Committees have previously engaged on a topic and what specific actions/decisions are being sought. In turn, this approach would inform the Chair's Brief and much of the minuted conclusion.

7 Board Secretariat

7.1 All Board Members spoke well of the Secretariat and their ability to oversee papers to the Board and its sub-committees. It was commented that paper production was “quite an industry” with opportunity cost for the Executive in time spent on long papers and the additional burden of juggling timetables for the Secretariat. The timing between ARACs, Business Committee and Board was thought to be tight and meant it was difficult to meaningfully feed in the outputs of a meeting held only 7-14 days before.

8 Other observations

8.1 The IT and use of SharePoint was felt to be “clunky” and problematic to access. It was recognised that there needed to be firewalls to FSA email and servers although the IT solutions got in the way of efficient working for NEDs.

8.2 The Board still struggled to represent diversity and that this will hopefully be accommodated in the new NED recruitments.

8.3 Recognition that prioritisation is complex when there is Government change but there is a Board appetite to shape change and be more on the front foot with the new Government.

8.4 Private NED/Board time to strategize and reflect is highly valued whether through closed sessions or evening dinner sessions.

8.5 KIT calls are useful but were commented on as quite formal as teams from the Executive are often called in to present. Is there scope to just have one person presenting in a more informal way to give time for discussion? (Again, this maps to the 2022 comment “Board members spoke highly of the ‘KIT’ calls but felt that they were most useful when not hidebound by an agenda. There was a feeling that it would be useful to hear from the CEO on these calls when there were Whitehall/business developments that it would be useful to share.”)

9 Summary of Recommendations

Board

1. Strategy: Address inertia where there is opportunity for timely and proactive communication of ideas/policy. Get the FSA more on the front foot.
2. Membership: New appointments for NEDs to include skills and expertise in Public Health, Food Business and Production, and an understanding of Commercial Finance.
3. Membership: Look for opportunity to accommodate representative diversity in the new appointments NEDs.
4. Secretariat: Revisit the recommendation from the 2022 Review to rationalise the detail and length of papers between the different Committees. Produce more concise papers in plain language. Add cover sheets which describe prior history, and which Committees and decisions have been engaged earlier. Set out a clear objective for the specific Committee in terms of decision required and leave explanation of complications/hurdles to the main paper.
5. Aim to allow more than one week between ARAC or Business Committee and the Board to allow their recommendations to come to Board in time.
6. Engage Board in feedback on the value and effectiveness of IT solutions and improve where possible.
7. Make KIT calls less formalised without the need for teams of officials to attend.

Business Committee

8. Prior to Business Committee meetings, papers re-shared to non-BC member NEDs to engage and input more effectively leading up to Board meetings.
9. Keep the agenda under review to avoid potential duplication with Board and to maintain the focus on high level operational performance.

ARAC

10. Review case examples of risks that merit being passed forward from ARAC to the wider Board. Specifically, risks that are unmitigated or unresolved and which impede delivery of FSA strategy or operations at a significant level. The purpose being to assure that outstanding risks are being reported to Board and effectively resolved/mitigated.
11. Dedicate Committee time to horizon scanning strategic and operational risks to anticipate and plan to minimize risk and reactive mitigations.

Science Committees

12. Formulate a simple framework to represent to Board how the Science Council and Scientific Advisory Committees feed into or are commissioned to inform risk evaluation on innovative or unevaluated food technologies.

ANNEX 2

Audit and Risk Assurance Committee Terms of Reference 2024

Purpose: The Audit and Risk Assurance Committee (ARAC) is an advisory Committee of the FSA Board with no executive powers. It is responsible for reviewing, in a non-executive capacity, the comprehensiveness and reliability of assurances on governance, risk management and the control environment.

The ARAC will approve the Annual Reports and Accounts (ARAs) on behalf of the FSA Board, with the recommendation that the Accounting Officer sign the accounts on approval. It shall additionally have responsibility for reviewing the integrity of financial statements.

Membership: A minimum of four Members of the FSA Board appointed by the FSA Chair under delegated powers following consultation with the Committee Chair. At least one of those appointed will be a Board Member for Wales or Northern Ireland. The Deputy Chair, Chair of the Business Committee, will attend ARAC to ensure effective communication and co-ordination between the committees.

The term of appointment will normally be coterminous with an individual's term of appointment to the FSA Board and will automatically cease if an individual ceases to be a Board Member.

At least one of the Committee members should have recent and relevant financial experience.

All new members will be provided with induction training and the FSA will provide for any additional development which is deemed necessary for the member to fulfil their role on the Committee. The Chair of the ARAC will hold an annual review with each member and any training or development needs will be taken forward with the agreement of the Chair and Accounting Officer.

Committee Chair: Appointed from the membership of the Committee by the Chair of the FSA under delegated powers. The term of appointment will normally be coterminous with an individual's term of appointment to the FSA Board.

Co-option: The Committee may co-opt additional members (whether members of the FSA Board or not) for a period of up to one year to provide specialist skills, knowledge or experience. Co-opted members will have a right to speak, but not vote. Co-opted members will not be included in any calculation of the quorum.

Quorum: Three Non-Executive Board Members.

Attendance: The Chief Executive, as Accounting Officer, the Director of People and Resources, the Deputy Director of Finance and Planning, the Head of Planning and Performance, the Head of Internal Audit, and a representative of the external auditors would normally be invited to attend. Directors and other officials will be invited to attend as required.

Reporting: The ARAC Chair will provide the Chair of the FSA and the Board with a written update on the key elements of Committee meetings. The ARAC will report formally in writing to the Board, annually, to support the finalisation of the accounts and the Governance Statement and to update the Board on the work of the Committee, internal and external audit and any areas requiring specific attention.
