

# U.M.I. Foods recalls stuffed mushroom products because of undeclared wheat (gluten)

U.M.I. Foods is recalling stuffed mushroom products because they contain wheat (gluten) which is not mentioned on the label. This means the products are a possible health risk for anyone with an allergy or intolerance to wheat or gluten. These products are only sold in Sainsbury's and Tesco in Northern Ireland.

## Risk statement

**Allergen(s):** Wheat (gluten)

These products contain wheat (gluten) making them a possible health risk for anyone with an allergy or intolerance to wheat or gluten.

## Action taken by the company

U.M.I. Foods is recalling the above products from customers and has been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. This notice explains to customers why the product is being recalled and tell them what to do if they have bought the product."

## Our advice to consumers

If you have bought the above products and have an allergy or intolerance to wheat or gluten, do not eat them. Instead return them to the store from where they were bought for a full refund.

### About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
